Business Customer Application - Cost Plus 20%

We welcome the opportunity to assist co-op Owners in sourcing products from our suppliers for use in their businesses. This offer is extended to licensed businesses that will use the products for resale. It is not to be used for family groceries. Examples of the type of business that can use this resource are restaurants, bed and breakfasts or small hotels, and tour businesses that purchase groceries for large groups of people.

Another requirement is co-op Ownership. The investment is \$200 and has many benefits. See our brochure for more information about ownership.

For business resale customers who meet these requirements we offer bulk bags or cases of products at our cost (including shipping) plus 20%. Items purchased from the shelf to use in business are 10% off. Personal groceries must be purchased at our regular prices.

Name _____

Business Name _____

Owner Number _____

Alaska Business License Number _____

Address _____

Phone number _____

Email _____

Brief business description and products you are interested in purchasing

Each week, orders can be placed through the department buyer or special order contact by an established deadline. Typically, orders are placed on Monday for delivery to Co-op Market the following Tuesday. You can usually pick up deliveries at the Co-op anytime after Tuesday at 4 pm.

We will set up a spreadsheet with prices and order numbers to make the ordering process as smooth as possible.
